

2010 Watering Restrictions

It has been a long and very dry winter! The Stonegate Village Metropolitan District would like to take a few minutes of your time to remind you of the need to conserve water by adhering to the following watering restrictions and tell you what the District is doing to conserve water in the open spaces.

First the watering schedule:

- No outdoor watering before April 15th or after October 15th
- Addresses ending with an even number (0, 2, 4, 6 or 8) may water Sunday, Tuesday and Friday.
- Addresses ending with an odd number (1,3,5,7 or 9) may water Monday, Thursday and Saturday.
- No watering is permissible on Wednesday
- Watering is permissible between the hours of 7 pm and 8 am on your designated watering days.
- Three week grace period with no watering restrictions is granted for users with new lawns provided the installation occurs prior the Memorial Day or after Labor Day.

Secondly, the District is the provider of water but, it is also a user. As a user, the District is doing its part to reduce water usage in the open space areas by the establishing the following goals:

- Eliminate use of deep ground water supply as a supplemental source to the treated effluent irrigation system.
- Ensure irrigation occurs within agronomic rates
- Continue to audit the irrigation system and correct deficiencies in a timely manner.
- Identify areas than can be converted to low water use plant material.

The overall goal of the District is to minimize the significant costs of buying, transporting, storing, and treating renewable water to supplement the deep ground water supply. The District appreciates the help of all users in meeting this goal.

If you have any questions, please call the District Office at 303-858-9909.
